

RUSSIAN FEDERATION
FEDERAL LAW
ON AMENDMENTS TO
PART 4 OF THE CIVIL CODE OF
THE RUSSIAN FEDERATION

Adopted by
State Duma
on 25 May 2021

Approved by
Federation Council
on 2 June 2021

To make the following amendments to Part 4 of the Civil Code of the Russian Federation, supplementing Article 1360.1:

“Article 1360.1. The use of invention for production of pharmaceutical products for a purpose of export in accordance with the Russian obligations under the international agreement

1. The Government of the Russian Federation has the right, in the cases and on the conditions provided by an international treaty of the Russian Federation, to use inventions for the production of a medicinal product in Russia for the purpose of exporting it without an authorization of right holder notifying him help as soon as possible and paying him a remuneration. This decision contains information on the volume of production of the medicinal product, determined by the needs of a foreign state, on the territory of which the medicinal product is to be exported. Medicinal product packaging must have a special designation.

2. The procedure for notification indicated in paragraph 1 of this Article, the grounds and procedure for the use of invention in the Russian Federation for exporting and its expiration, the methodology of remuneration calculation and its payment are approved by the Government of the Russian Federation in accordance with the international agreement of the Russian Federation”.

The President
of the Russian Federation
Vladimir Putin
