- (1) Subject to subsection (2), where an application is made by or with the consent of the owner of copyright in an artistic work

for the registration of a corresponding design, the design shall not be treated for the purposes of this Ordinance as being other than new by reason only of any use previously made of the artistic work.

- (2) Subsection (1) does not apply if the previous use consisted of or included the sale, letting for hire, or offer or exposure for sale or hire of articles to which had been applied industrially—
 - (a) the design in question; or
 - (b) a design differing from it only in immaterial details or in features which are variants commonly used in the trade, and that previous use was made by or with the consent of the copyright owner.
- (3) Provision may be made by rules as to the circumstances in which a design is to be regarded for the purposes of this section as “applied industrially” to articles or any description of articles.

11. Provisions as to registration of same design in respect of other articles, etc.

- (1) Where the registered owner of a design registered in respect of any article makes an application—
 - (a) for registration in respect of 1 or more other articles, of the registered design; or
 - (b) for registration in respect of the same or 1 or more other articles, of a design consisting of the registered design with modifications or variations not sufficient to alter the character or substantially affect the identity thereof,the application shall not be refused, and the registration made on the application shall not be invalidated, by reason only

of the previous registration or publication of the registered design.

- (2) Where any person makes an application for the registration of a design in respect of any article and either—
- (a) the design has been previously registered by another person in respect of some other article; or
 - (b) the design to which the application relates consists of a design previously registered by another person in respect of the same or some other article with modifications or variations not sufficient to alter the character or substantially affect the identity thereof,

then, if at any time while the application is pending the applicant becomes the registered owner of the design previously registered, subsection (1) shall apply as if at the time of making the application the applicant had been the registered owner of that design.

- (1) An application for registration of a design shall be filed with the Registrar in the prescribed manner.
- (2) The application shall include—

- (5) The application shall be accompanied by the prescribed filing fee and the prescribed advertisement fee.

13. Multiple applications

Two or more designs may be the subject of the same application for registration if the designs—

- (a) relate to the same prescribed class of articles or to the same set of articles; and
- (b) comply with any prescribed conditions.

14. Filing date

The filing date of an application for registration of a design is the earliest date on which—

- (a) documents containing everything required by section 12(2)(a) to (c) are filed; and
- (b) the fees required by section 12(5) are paid.

15. Priority right

- (1) A person who has duly filed an application for registration of a design in, or in respect of, a Paris Convention country or WTO member, or his successor in title, shall enjoy, for the purpose of registering the same design under this Ordinance

in respect of any or all of the same articles, a right of priority for the period of 6 months after the filing date of the first application, subject to compliance with any prescribed conditions. (*Amended 2 of 2001 s. 21*)

- (2) Any filing of an application for registration of a design in, or in respect of, a Paris Convention country or WTO member which is equivalent to a regular national filing under the law of that Paris Convention country or WTO member, or under any bilateral or multilateral agreement to which it is a party, shall be recognized as giving rise to a right of priority.
- (3) A subsequent application for the registration of a design that was the subject of a previous application, and that is filed in or in respect of the same Paris Convention country or WTO member, shall be considered as the first application for the purpose of determining priority if, and only if, on the filing date of the subsequent application, the previous application has been withdrawn, abandoned or refused, without being open to public inspection and without leaving any rights outstanding, and has not served as a basis for claiming a right of priority.
- (4) In this section, ***regular national filing*** (正規國家提交) means any filing of an application for registration of a design in, or in respect of, a Paris Convention country or WTO member that establishes the date on which the application was filed, whatever the outcome of the application may be.

16. Claiming priority

- (1) An applicant who desires to take advantage of the priority of a previous application shall file with the Registrar in the prescribed manner a statement of priority and a copy of the previous application.
- (2) Where a statement of priority is filed in accordance with this section, the applicant shall for the purposes of proceedings

before the Registrar be deemed to be entitled to enjoy the right of priority shown in the statement.

17. Effect of priority right

- (1) The right of priority shall have the effect that the filing date of the previous application claimed under section 16 shall be regarded as being the filing date of the application for registration under this Ordinance for the purpose of determining whether the design in question is new.
- (2) Subsection (1) shall not be construed as excluding the power to give directions under section 5(3) in relation to the application for registration under this Ordinance.
- (3) Where an application for registration of a design is filed under this Ordinance and the priority of a previous application is claimed under section 16, then, notwithstanding anything contained in this Ordinance, the application shall not be refused and the registration of the design under this Ordinance shall not be invalidated by reason only of the fact that the previous application has been published at any time after the filing date of the previous application.

18. Withdrawal of applications

- (1) An applicant may withdraw his application for registration of a design by filing a notice of withdrawal with the Registrar before the date on which preparations for publication under section 25 have been completed, as determined by the Registrar.
- (2) A notice under this section shall be—

 - (b) filed in the prescribed manner.
- (3) Where a notice is filed in accordance with this section, the application shall be deemed withdrawn.

19. Effect of withdrawal

Where an application for registration of a design is deemed by any provision of this Ordinance to have been withdrawn, the following provisions shall apply—

- (b) no other right may be claimed under this Ordinance in relation to the application.

20. Reinstatement of applications deemed withdrawn

- (1) Where an application for registration of a design is deemed to have been withdrawn following the applicant's failure to comply with a time limit under this Ordinance (including any time limit set by the Registrar) and the applicant has by notice filed with the Registrar requested reinstatement of the application, then—

- (a) any deemed withdrawal of the application that occurred as a direct consequence of the failure to comply shall be deemed to be of no effect and the application shall be treated for the purposes of proceedings under this Ordinance as if there had been no such failure; and
- (b) any right or means of redress lost by the applicant as a direct consequence of the failure to comply shall be restored to the applicant.

- (2) A notice under this section shall be—

- (a) made in writing; and
- (b) filed in the prescribed manner within 1 month after such deemed withdrawal.

- (3) A notice under this section shall be deemed not to have been filed until the omission which constituted the failure to comply with the time limit has been made good.

21. Amendment of applications

- (1) The Registrar may amend an application for registration of a design on request made to him by the applicant in the prescribed manner.
- (2) An application for registration of a design shall not be amended under subsection (1) if, as a result of the amendment, the scope of the application would be increased by the inclusion of any matter that was not in substance disclosed in the application initially filed.

22. Division of applications after amendment

- (1) Where a request for amendment of an application for registration of a design has been granted under section 21, and the amendment has the effect of excluding one or more designs from the application initially filed, the applicant may at any time while the initial application is pending make a further application, referred to in this section as a *divisional application*, for registration of the design or designs so excluded.
- (2) A divisional application shall be entitled to the filing date and the priority date, if any, of the initial application.

23. Rights in applications

- (1) The provisions of sections 32 to 34 (which relate to rights in registered designs) apply, with necessary modification, in relation to an application for registration of a design as they apply in relation to a registered design.

- (2) In section 33, as it applies in relation to an application for registration of a design, the reference in subsection (1) to the registration of a design shall be construed as a reference to the making of the application.
- (3) In section 34, as it applies in relation to a transaction, instrument or event affecting an application for registration of a design, the references to the registration of particulars, and to the making of an application for the registration of particulars, shall be construed as a reference to the giving of written notice to the Registrar of those particulars.

Examination and Registration

24. Examination of applications

- (1) If an application for registration of a design has been accorded a filing date under section 14 and has not been withdrawn, the Registrar shall examine the application to determine whether it satisfies the formal requirements.
- (2) Where the Registrar determines that there are deficiencies as regards the formal requirements, he shall notify the applicant and give him an opportunity to correct the deficiencies within the prescribed period.
- (3) If any deficiencies as regards the formal requirements are not corrected within the prescribed period, the application shall be deemed to be withdrawn.
- (4) In this Ordinance, *formal requirements* (形式上的規定) means such requirements of section 12 and of any rules made for the purposes of that section as are specified in the rules as being the formal requirements.

25. Registration and publication

If on an examination by the Registrar under section 24 an

 - (a) that the application does not satisfy the formal requirements; or
 - (b) that, on the face of the application, the design is not new or is not registrable for any other reason.
- (2) The Registrar shall give notice of any such refusal to the applicant.
- (3) Where the Registrar refuses an application for registration of a design under this section, the following provisions shall apply—

- (a) the applicant shall continue to enjoy the right of priority under section 16 which he enjoyed immediately before such refusal; and
- (b) no other right may be claimed under this Ordinance in relation to the application.

Except as expressly provided to the contrary, nothing in this Ordinance shall be construed as imposing any obligation upon the Registrar to consider or have regard to, for the purpose of determining whether to accept an application for registration of a design, any question as to—

 - (b) an act which would have constituted an infringement of the design if the registration had not ceased to have effect shall be deemed to constitute such an infringement; and

then, notwithstanding section 28, the period of registration of the design expires when the copyright in that work expires, if that is earlier than the time at which it would otherwise expire, and it may not thereafter be renewed.

- (2) Notwithstanding section 28, the period of registration of a design registered by virtue of section 11(1) shall not extend beyond the end of the period of registration, and any extended period of registration, of the original registered design.

- (4) Any Government use of a registered design shall be made on such terms as may be agreed by the Government and

the registered owner or as may in default of agreement be determined by the court on a reference under section 40.

- (5) The authority of a public officer in respect of a registered design may be given to any person under subsection (1) either before or after the design is registered and may be given to any person whether or not that person is authorized directly or indirectly by the registered owner to do anything in relation to the design.
- (6) Where any Government use of a registered design is made by or with the authority of a public officer under this section, the public officer shall notify the registered owner as soon as practicable after the use is begun, and furnish him with such information as to the extent of the use as he may from time to time require.

- (a) in developing the design; or

- (b) in making payments to the registered owner of the design in consideration of the licence, other than royalties or other payments determined by reference to the use of the design.
- (9) Any agreement between the registered owner and the Government under section 37(4) as to the amount of the section 37(4) payment shall be of no effect unless the licensee consents to the agreement; and any determination by the court under section 40 as to the amount of that payment shall be of no effect unless the licensee has been informed of the reference to the court and is given an opportunity to be heard.

- (4) No compensation is payable in respect of any failure to secure contracts to supply articles which are not intended for Government use.
- (5) The amount payable shall, if not agreed between the registered owner or exclusive licensee and the Government, be determined by the court on a reference under section 40, and is in addition to any amount payable under section 37 or 38.

- (a) an application to register the prescribed particulars of the transaction, instrument or event is made before the end of the period of 6 months from the date of the transaction, instrument or event; or
 - (b) the court is satisfied that it was not practicable for such an application to be made before the end of that period and that an application was made as soon as practicable thereafter,

Part V

Legal Proceedings

Proceedings for Determination of Rights in Registered Designs

41. Determination of rights after registration

- (1) After a design is registered, any person having or claiming a proprietary interest in or under the design may refer to the court the question—
 - (a) who is or are the true owner or owners of the design;
 - (b) whether the design should have been registered in the name of the person or persons in whose name or names it was registered; or
 - (c) whether any right in or under the design should be transferred or granted to any other person or persons,and the court shall determine the question and make such order as it thinks fit to give effect to the determination.
- (2) Without prejudice to the generality of subsection (1), an order under that subsection may contain provision—
 - (a) directing that the name of the person by whom the reference is made shall be entered in the Register as the owner or one of the owners of the design (whether or not to the exclusion of any other person);
 - (b) directing the registration of a transaction, instrument or event by virtue of which that person has acquired any right in or under the design;
 - (c) granting any licence or other right in or under the design; or

- (d) directing any person registered as the owner of the design or any person having any right in or under the design to do anything specified in the order as necessary to carry out the other provisions of the order.
- (3) If any person to whom directions have been given under subsection (2)(d) fails to do anything necessary for carrying out any such directions within 14 days after the date of the order containing the directions, the court may, on application made to it by any person in whose favour or on whose reference the order was made, authorize him to do that thing on behalf of the person to whom the directions were given.
- (4) If a reference under this section is made after the end of the period of 2 years beginning with the date of registration of the design to which the reference relates, no order shall be made under subsection (1) transferring any right in or under the design from the person registered as the owner of the design to any other person on the ground that the person so registered was not entitled to be registered as the owner unless it is shown that he knew at the time of the registration or, as the case may be, of the transfer of the design to him, that he was not entitled to be registered as the owner.
- (5) Where a question is referred to the court under this section, no order shall be made by virtue of subsection (2) or under subsection (4) unless notice of the reference is given to all persons registered as owner of the design or as having a right in or under the registered design except those who are parties to the reference.

42. Effect of transfer of registered design under section 41

- (1) Where an order is made under section 41 that a registered design shall be transferred from any person or persons (the old owner or owners) to one or more persons (whether or not including an old owner), then, except in a case falling within

subsection (2), any licences or other rights granted or created by the old owner or owners shall, subject to section 32 and to the provisions of the order, continue in force and be treated as granted by the person or persons to whom the design is ordered to be transferred (the new owner or owners).

- (2) Where an order is so made that a registered design shall be transferred from the old owner or owners to one or more persons none of whom was an old owner (on the ground that the design was registered in the name of a person not entitled to be registered as an owner), any licences or other rights in or under the design shall, subject to the provisions of the order and subsection (3), lapse on the registration of that person or those persons as the new owner or owners of the design. (*Amended E.R. 1 of 2022*)
- (3) Where an order is so made that a registered design shall be transferred as mentioned in subsection (2) and, before particulars of the reference resulting in the making of the order are entered in the Register, the old owner or owners or a licensee—
- (a) does in good faith an act which would have constituted an infringement of the design if particulars of the reference had been registered at the time the act is done; or
- (b) makes in good faith effective and serious preparations to do such an act,
- the old owner or owners or the licensee shall on making a request to the new owner or owners within the prescribed period be entitled to be granted a licence (but not an exclusive licence) to continue to do the act or, as the case may be, to do the act.
- (4) Any such licence shall be granted for a reasonable period and on reasonable terms.

- (5) The new owner or owners of the registered design or any person claiming that he is entitled to be granted any such licence may refer to the court the question whether that person is so entitled and whether any such period is, or any such terms are, reasonable, and the court shall determine the question and may, if it considers it appropriate, order the grant of such a licence.

43. Licences granted by order of court

Any order made under section 41(2) or 42(5) for the grant of a licence shall, without prejudice to any other method of enforcement, have effect as if it were a deed, executed by the owner of the registered design and all other necessary parties, granting a licence in accordance with the order.

Proceedings for Revocation of Registration

44. Revocation on ground of public order (“ordre public”) or morality

- (1) Any person may at any time after a design has been registered under this Ordinance refer to the Registrar the question of whether, having regard to section 7, the design is a registrable design.
- (2) Subject to subsection (3), where a question is so referred to the Registrar, he shall determine the question.
- (3) The Registrar may, if he thinks fit, refer the question to the court for determination and, without prejudice to the court’s jurisdiction apart from this subsection to determine any such question, the court shall have jurisdiction to do so.
- (4) If the Registrar or the court determines that the design is not a registrable design under section 7, he or it shall order the registration of the design to be revoked.

- (5) Any person may oppose a reference made under subsection (1).

45. Revocation on ground that design was not registrable

The court may, on application by any person, order the registration of a design to be revoked on the ground that, at the time of its registration, the design was not new or was not registrable for any other reason.

46. Revocation on ground that person is not entitled to be registered as owner

- (1) Subject to subsections (2) and (3), the court may, on application by any person, order the registration of a design to be revoked on the ground that the person whose name is entered in the Register as the owner of the design is not entitled to be registered as the owner.
- (2) An application under subsection (1) may be made only by a person found by the court on a reference under section 41 to be entitled to be registered as the owner of the design.
- (3) Where the reference under section 41 was commenced after the end of the period of 2 years beginning with the date of registration of the design, the court may not order the revocation of the registration of the design under this section unless the applicant shows that the person whose name is entered in the Register as the owner of the design knew at the time of its registration or of the registration of the transfer of the design to him that he was not entitled to be registered as the owner.

47. Effect of revocation

Without affecting transactions past and closed, where an order is made under section 44, 45 or 46 that the registration of a design be revoked, the Registrar shall rectify the Register accordingly and

the registration of the design shall be deemed never to have been made.

Infringement Proceedings

48. Proceedings for infringement by registered owner

- (1) An infringement of the right in a registered design is actionable by the registered owner and in any action in respect of such an infringement all such relief, by way of damages, injunction, account of profits or otherwise shall be available to the plaintiff as is available in proceedings in respect of the infringement of other proprietary rights.
- (2) The court shall not, in respect of the same infringement, both award damages and order an account of profits.
- (3) No proceedings shall be taken in respect of an infringement of a registered design committed before the date on which the certificate of registration of the design is issued under section 25.

49. Proceedings for infringement by co-owner

- (1) Subject to this section and to any agreement to the contrary, where there is more than one registered owner of a registered design, each of them shall be entitled to bring proceedings in respect of any infringement of the design.
- (2) In the application of section 31 to a registered design of which there is more than one registered owner, the reference to the registered owner shall be construed—
 - (a) in relation to any act, as a reference to that registered owner or those registered owners who, by virtue of section 33 or any agreement referred to in that section, is or are entitled to do that act without its constituting an infringement; and

- (b) in relation to any consent, as a reference to that registered owner or those registered owners who, by virtue of section 33 or any such agreement, is or are the proper person or persons to give the requisite consent.
- (3) In any proceedings taken by a registered owner by virtue of this section the other registered owner or owners shall be made a party or parties to the proceedings, but if any other registered owner is made a defendant he shall not be liable for any costs or expenses unless he takes part in the proceedings.

50. Proceedings for infringement by exclusive licensee

- (1) Subject to this section, the holder of an exclusive licence under a registered design shall have the same right as the registered owner to bring proceedings in respect of any infringement of the design committed after the date of the licence and references to the registered owner in the provisions of this Ordinance relating to infringement shall be construed accordingly.
- (2) In awarding damages in any proceedings taken by an exclusive licensee by virtue of this section the court may take into consideration only the losses suffered or likely to be suffered by the exclusive licensee as a result of the infringement.
- (3) In ordering an account of profits in any proceedings taken by an exclusive licensee by virtue of this section the court may take into consideration only the profits derived from the infringement which are attributable to the infringement of the exclusive licensee's rights.
- (4) In any proceedings taken by an exclusive licensee by virtue of this section the registered owner shall be made a party to the proceedings, but if the registered owner is made a defendant he shall not be liable for any costs or expenses unless he takes part in the proceedings.

51. General restriction on recovery of damages or profits

- (1) In proceedings for the infringement of a registered design damages shall not be awarded, and no order shall be made for an account of profits, against a defendant who proves that at the date of the infringement he was not aware, and had no reasonable grounds for believing, that the design was registered.
- (2) For the purposes of subsection (1) a person shall not be taken to have been so aware or to have had reasonable grounds for so believing by reason only of the application to an article, or to any printed matter accompanying an article, of the word “registered” or “註冊”, or any word or words or abbreviation expressing or implying that a design has been registered, unless the registration number of the design accompanied the word or words or abbreviation in question.
- (3) In proceedings for infringement of a registered design the court may, if it thinks fit, refuse to award any damages or make any such order in respect of an infringement committed at any time during the period referred to in section 28(5) but before the fees referred to in that section are paid.

52. Restriction on recovery of damages or profits for infringements occurring before transactions are registered

Where a person becomes the registered owner or one of the registered owners or an exclusive licensee of a registered design by virtue of a transaction, instrument or event to which section 34 applies, then unless—

- (a) an application to register the prescribed particulars of the transaction, instrument or event is made before the end of the period of 6 months beginning with its date; or

- (b) the court is satisfied that it was not practicable to make such an application before the end of that period and that an application was made as soon as practicable after the end of that period,

he is not entitled to damages or an account of profits in respect of any infringement occurring after the date of the transaction, instrument or event and before the prescribed particulars of the transaction, instrument or event are registered.

53. Order for delivery up

- (1) Where a person has in his possession, custody or control in the course of a business—
 - (a) infringing articles; or
 - (b) anything specifically designed or adapted for the making of infringing articles, knowing or having reason to believe that the thing has been or is to be used to make infringing articles,

the registered owner of the design in question may apply to the court for an order that the articles or thing be delivered to him or to such other person as the court may direct.

- (2) Where the court makes an order under subsection (1), it shall also make an order under section 54 unless it determines that there are grounds for not making such an order.
- (3) No application may be made under subsection (1) after the end of the period of 6 years from the date the articles or thing concerned were made unless during the whole of that period the registered owner was under a disability or was prevented by fraud or concealment from discovering the facts entitling him to make the application, in which case the registered owner may make an application at any time before the end of the period of 6 years from the date on which he ceased

to be under a disability or, as the case may be, could with reasonable diligence have discovered those facts.

- (4) A person to whom any article or thing is delivered up under an order made under subsection (1) shall, if an order is not made under section 54 at the time of the making of the order under subsection (1), retain the article or thing pending the making of an order under section 54 or the decision of the court not to make such an order.

54. Order for disposal

- (1) An application may be made to the court for an order that the articles or thing delivered up under section 53 shall be—
 - (a) forfeited to the registered owner;
 - (b) destroyed; or
 - (c) disposed of in such manner as the court specifies.
- (2) In deciding what order or decision to make under subsection (1), if any, the court shall consider whether any other remedies available in proceedings for infringement would be adequate to compensate the registered owner and any licensee and protect their interests.
- (3) Where there is more than one person interested in the articles or thing in question, the court may make such order under subsection (1) as it thinks just and it may, in particular, direct that the articles or thing delivered up under section 53 be disposed of and the proceeds be divided among them as the court directs.
- (4) If the court decides that no order should be made under subsection (1), the person who had possession, custody or control of the articles or thing before they were delivered up under section 53 is entitled to their return.

55. Declaration as to non-infringement

Without prejudice to the court's jurisdiction to make a declaration apart from this section, a declaration that an act does not, or a proposed act would not, constitute an infringement of a registered design may be made by the court in any proceedings between the person doing or proposing to do the act and the registered owner, notwithstanding that no assertion to the contrary has been made by the registered owner, if it is shown that—

- (a) that person has applied in writing to the registered owner for a written acknowledgement to the effect of the declaration claimed, and has furnished him with full particulars in writing of the act in question; and
- (b) the registered owner has refused or failed to give any such acknowledgement.

56. Certificate of contested validity of registration

- (1) If in any proceedings before the court the validity of the registration of a design is contested and that registration is found by the court to be valid, the court may certify the finding and the fact that the validity of the registration was so contested.
- (2) Where a certificate is granted under this section, then if, in any subsequent proceedings before the court for infringement of the registered design concerned or for revocation of the registration, a final order or judgment is made or given in favour of the party relying on the validity of the registration that party shall, unless the court otherwise directs, be entitled to his costs on the indemnity basis within the meaning of that term as appearing in Order 62, rule 28 of the Rules of the High Court (Cap. 4 sub. leg. A) (other than the costs of any appeal in the subsequent proceedings). (*Amended 25 of 1998 s. 2; E.R. 1 of 2022*)

57. Remedy for groundless threats of infringement proceedings

- (1) Where a person (whether or not the registered owner of, or entitled to any right in, a registered design) by circulars, advertisements or otherwise threatens any other person with proceedings for infringement of a registered design, any person aggrieved by the threats (whether or not he is the person to whom the threats are made) may, subject to subsection (4), bring proceedings in the court against the person making the threats for any such relief as is mentioned in subsection (3).
- (2) In any such proceedings the plaintiff shall, if he proves that the threats were so made and satisfies the court that he is a person aggrieved by them, be entitled to the relief claimed unless—
 - (a) the defendant proves that the acts in respect of which the proceedings were threatened constitute or, if done, would constitute an infringement of a registered design; and
 - (b) the plaintiff fails to show that the registration of the design concerned is invalid.
- (3) The relief is—
 - (a) a declaration to the effect that the threats are unjustifiable;
 - (b) an injunction against the continuance of the threats; and
 - (c) such damages, if any, as have been sustained by the plaintiff by reason of the threats.
- (4) Proceedings may not be brought under this section as regards a threat to bring proceedings for an infringement alleged to consist of the making of an article for sale or hire or the importing of anything.

- (5) For the purposes of this section a notification of the existence of a registered design does not of itself constitute a threat to institute proceedings.
